Note—The above varieties of 2-year, transplanted Altheas are good stocky plants, that got mixed in our storage and we were unable to separate. Any one desiring mixed colors would make a good buy to get some of these.

SEEDLING ALTHEA, or Rose of Sharon.

These are grand flowering shrubs. There is a wide range of color, and not a day from the middle of July until September—a time when so few other shrubs are in bloom—that Altheas are not aglow with flowers. They have no insect enemies, grow well anywhere, are splendidly suited for shrubbery borders, for colony plantings and hedges. The planter who uses them freely makes no mistake.

FOREST TREE SEEDLINGS (COLLECTED).

This Stock is Not Nursery Grown But is Collected From the Mountains and Forests

Note—Most collected seedlings, such as Maples and some others, except large size, are crooked near the ground and should be cut back to crown before planting. They grow up straight, smooth and much faster and quicker than when planted without cutting back. We cut back all seedlings to crown before transplanting.

Gentlemen:

Summer months are passing and nursery stock is growing nicely. This should make us all make ready for the rush ahead. It will surely come and we feel that we can serve you well.

We have just issued an Advance Trade List--a copy is herewith enclosed. Our regular list will be issued in September. This advance list contains items which will not be in the regular list for our supply on many items is already very limited.

We have booked some nice orders for delivery this coming season. We believe that our prices will interest you and that it will be to your advantage to place your reservation order just as soon as possible. This will enable you to get best prices and with more assurance of your order being filled complete.

Please go over the list and write at once, giving your requirements and we shall book the order and reserve the stock for you under regular terms. We want to serve you and will do our best for you, if allowed the privilege.

With best wishes, we are
